

**ACM MobiHoc 2017**  
10-14 July 2017 • IIT Madras, Chennai, India

## Call for Posters

ACM MobiHoc 2017 will include a poster session to enable fast and timely dissipation of recent results and encourage discussions on emerging research. We solicit submission of original work related to any topic in the broad area of networks. The specific areas of interest include, but are not limited to:

- Modeling, analysis, and control of dynamic networks
- Network optimization and learning
- Ultra-wideband and millimeter-wave mobile networking
- Analytical modeling and model validation
- Performance, fundamental limits, scalability, energy, and reliability
- Routing, scheduling, resource allocation, spectrum sharing
- Online algorithms for interacting networks
- Communication and networking aspects of cyber-physical systems
- Anomaly detection, network monitoring and forecasting
- Network games, network economics
- Big data in the context of dynamic networks
- Tasks, applications, sensing, and services over networks
- Trust, security, and privacy
- Exciting results from experimental systems

All presented posters will be considered for the Best Poster Award. The winner will be selected at the conference by an award committee.

## Important Dates

Submission Deadline: 17 March 2017 (11:59pm EST)

Notification of Acceptance: 1 April 2017

Camera Ready Deadline: 1 June 2017
